### **NATIONAL CERTIFICATE VOCATIONAL (NCV)**

### **Electrical Engineering Level 3** (Electrical Infrastructure Construction)

Certification Body

**UMALUSI**

## INTRODUCTION

The National Certificate Vocational (NCV) in Electrical Engineering Level 3 is a second year of a three year qualification, building on the knowledge and skills gained in the previous level (Level 2) that combines theory with Practical skills in careers like electrician, Industrial Engineer, contractors and technicians providing specialized training in heavy/light current and electrical components.

The practical component of the study is offered in a real workplace environment or in a simulated workplace environment. This provides students with an opportunity to experience workplace situations during the period of study.

## ENTRY REQUIREMENTS

National Certificate Vocational Level 2 Certificate

## DURATION

12 Months (1 Year)

## EXAMINATION AND ASSESSMENT

This qualification is externally assessed by Department of Higher Education and Training at the end of each level for the modules that the learner registered in that particular level. To qualify for this assessment, the learner has to obtain 40% in the Internal Continuous Assessments (Tests and assignments) conducted internally during the course of the year.

## CERTIFICATION

A National Certificate Vocational (NCV) Level 3 Certificate in Electrical Engineering will be issued on successful passing of all required level 3 modules. This certificate is issued by the UMALUSI as the quality assurance body in coordination with the Department of Higher Education and Training as the assessment organ.

## ARTICULATION

**Vertical Articulation (Progression):** Learners who successfully complete NCV Level 3 can proceed to NCV Level 4 as the last level of the qualification
