

NATIONAL N CERTIFICATE

BOILER MAKING N2

DESCRIPTION

This course builds on the knowledge and skills that you gained in the previous level (N1), and further prepares you for the workplace by introducing you to various aspects of Boiler Making. It also equips you with more of the knowledge and skills that you need to work in the field.

This qualification is for learners who wish to further their learning and possibly specialize in fabrication within the context of boiler making, plating, welding, sheet metal working or auto vehicle body building.

ENTRY REQUIREMENT

1. Grade 10 with a pass in Mathematics and Physical Science
2. No formal communication for anyone older than 23

DURATION AND ACCREDITATION

3 Months for theory, simulations and on-site practicals

This course is accredited by UMALUSI as the quality assurance body and the Department of Higher Education and Training as the assessment body.

EXAMINATION / ASSESSMENTS

The learner is externally assessed by Department of Higher Education and Training at the end of each trimester in the modules that the learner registered in that particular trimester. To qualify for this assessment, the learner has to obtain 40% in each of the Internal Continuous Assessments (Tests and assignments) conducted internally during the course of the trimester.

CERTIFICATION

A National Nated Certificate in Boiler Making N1 will be issued on successful passing of all required N1 modules. This certificate is issued by Department of Higher Education and Training as the quality assurance and assessment body.
