

NATIONAL N CERTIFICATE

MECHANICAL ENGINEERING N3

DESCRIPTION

This course builds on the knowledge and skills that you gained in the previous level (N2), and further prepares you for the workplace by introducing you to various aspects of Mechanical Engineering. It also equips you with more of the knowledge and skills that you need to work in the field.

The purpose of this qualification is to provide learners, training providers and employers with standards and the range of learning required to work effectively within various industries making use of Mechanical engineering knowledge and skills to meet challenges of the Mechanical engineering environment.

ENTRY REQUIREMENT

1. Grade 11 with a pass in Mathematics and Physical Science
2. N2 Nated Certificate

DURATION AND ACCREDITATION

3 Months for theory, simulations and on-site practicals

This course is accredited by UMALUSI as the quality assurance body and the Department of Higher Education and training as the assessment body.

EXAMINATION / ASSESSMENTS

The learner is externally assessed by Department of Higher Education and Training at the end of each trimester in the modules that the learner registered in that particular trimester. To qualify for this assessment, the learner has to obtain 40% in each of the Internal Continuous Assessments (Tests and assignments) conducted internally during the course of the trimester.

CERTIFICATION

A National Nated Certificate in Mechanical Engineering N3 will be issued on successful passing of all required N3 modules. This certificate is issued by Department of Higher Education and Training as the quality assurance and assessment body.
